

Our Services at 24/7

We are specialists in precision mechanics for the marine Industry. Our services include:

- **Turbochargers**
- **Woodward Governors**
- **Marine/Mechanical Diagnostic, Repair and Reconditioning services for:**
 - Cylinder heads
 - Pistons
 - Fuel injectors
 - Cylinder liner
 - Crankshaft
 - Camshaft
 - Air coolers
 - Fuel pumps
 - Valves
 - Alignment system
- **Engineering, Supervision and Troubleshooting for stationary power plants and Marine applications**

Complete Overhaul on an MAN 7L48/60 Cylinder Heads

Following the MAN maintenance schedule a set of cylinder liner was received in our workshop for complete inspection. The service required reconditioning of inlet and exhaust valve seat ring, grinding of seal face on cylinder liner and cylinder head.

Also other inspections were performed during this overhaul service, such as inspection of inlet and exhaust valves, valves guides, indicator valve, cylinder head cooling water space and water pressure test.

Once finished all heads were cleaned, assembled and transport to the vessel.
